The conference offers a full overview of current scientific developments in the field of cervical cancer and other HPV related diseases. The event focuses on translating scientific and evidence based research into clinical practice by offering a high quality and innovative scientific program drawn up by outstanding international leaders from the academic sector as well as professional and patient organizations. The program aims to foster future advancements by providing fundamental insights to physicians and young researchers, allowing them to improve their practice.

LEARNING OBJECTIVES

- Assessing the impact of HPV and associated cancers on public health,
- Identifying strategies to prevent and treat HPV associated diseases
- Exchanging information on early detection, new diagnostic and therapeutic procedures and prevention strategies, including screening and HPV vaccination.
- Decision making in HPV associated diseases
- Improving education and awareness of health care professionals and the general public.

WHO SHOULD ATTEND?

- Clinicians from several disciplines, including:
 - Gynecologists
 - Oto-rhino-laryngologists
 - Head & neck specialists
 - Proctologists and gastro-enterologists
 - General practitioners
- Cytopathologists – Biologists
- Students, residents and young researchers
- Basic scientists - Epidemiologists

KEY FEATURES

- Leading worldclass faculty
- Development of skill based approaches in the field
- Educational approach for translational research in HPV related diseases
- Extensive offer of specialized training courses and workshops
- Interaction with peers and leading experts

HPV INDUCED CANCERS • EXPLORING KNOWLEDGE, PRIORITIES AND VISIONS

CONGRESS PROGRAM – OCTOBER 8–11, 2017

• MAIN TRAINING COURSE

Full day training course on HPV infection and associated diseases, including current standards for cervical cancer control and management.
Coordinators: **S. Franceschi (France)**, **E. Franco (Canada)**, **S. De Sanjosé (Spain)**, **H. Cubie (UK)**, **J. Dillner (Sweden)**, **P. Gravitt (USA)**

• WORKSHOPS (all are half-day workshops on Oct. 8, included with congress registration, except advanced colposcopy course)

✓ HPV IMMUNIZATION

Coordination: **Pierre Van Damme (Belgium)**

✓ QUALITY ASSURANCE IN CERVICAL CANCER SCREENING

Coordination: **Ahti Antilla (Finland)**

✓ VULVAR DISEASES

Coordination: **Jacob Bornstein (Israel)**, **Jorma Paavonen, (Finland)**

✓ ADVANCED COLPOSCOPY COURSE (SEPARATE REGISTRATION REQUIRED)

Coordination: **Albert Singer (UK)**

✓ WORKSHOP VOOR NEDERLANDSTALIGE DEELNEMERS • ZONDAG 8 OKTOBER 2017

HPV 2017: PREVENTIE EN BEHANDELING VAN ANOGENITALE TUMOREN

• SCIENTIFIC AND CLINICAL SESSIONS

- › Implementation of HPV based screening
- › Triage of HPV positive women
- › Cervical cancer screening guidelines
- › Consensus on self-sampling for screening
- › Gender-neutral HPV vaccination
- › National HPV vaccination programs
- › Vaccine safety
- › Therapeutic vaccines
- › Colposcopy
- › Targeting high-risk populations
- › Management of vulvar carcinoma
- › Clinical decision making
- › HPV in immunocompromized patients
- › Epidemiology
- › HPV infection, transmission
- › Next generation of HPV tests
- › Biomarkers and predictors
- › Molecular biology
- › Carcinogenesis
- › Anus and male HPV related diseases
- › Vaginal microbiome
- › HPV associated diseases in non anogenital sites
- › Health economics and modeling
- › HPV and immunology
- › Low resource settings
- › Patient education (Women Against Cervical Cancer Forum)

• SHARE YOUR RESEARCH WORK WITH COLLEAGUES AND PEERS

- › Free Communications, Poster presentations

• EUROGIN GRANTS FOR YOUNG RESEARCHERS

- › Submit your abstract and apply for a grant awarded to the best selected papers

EUROGIN 2017 includes the

INTERNATIONAL FORUM ON HPV AND HEAD AND NECK CANCER

October 8 – 9, 2017 (no separate registration required)

Program Committee: **Brakenhoff R., Dalianis T., Derkay C., Fakhry, C., Gillison, M., Kreimer, A., Lacau St. Guily, J., Syrjänen S., Waterboer T.**

This forum, part of the EUROGIN 2017 congress, includes dedicated sessions extending over 2 days on HPV infection and head & neck cancers. Oropharyngeal cancer is one of the fastest rising cancers in many countries.

More than 15 years ago, human papillomavirus (HPV) was found to be the causative agent of a subset of head and neck cancers (HNC). This new disease entity appears to have significantly better survival outcomes. However, important questions arise regarding its natural history, diagnosis, patient counseling and the best management regimens.
