

PROGRAM TOPICS

WORKSHOPS

Cervical cancer screening

Vulvar diseases

Colposcopy course

Anal diseases: screening guidelines

CERVICAL CANCER CONTROL

Global inequalities in cervical cancer prevention: Are we currently on the path to cervical cancer elimination?

3rd edition of the European Guidelines for quality assurance in cervical cancer screening

Strategies for faster cervical cancer elimination

SCREENING

Risk based screening

Quality assurance measures in countries that switched to HPV primary screening

SELF-SAMPLING

HPV-testing on self-samples

Evidence on the comparability of self-sampling VS provider-sampling for HPV testing

HPV self-sampling among transgender and gender diverse individuals

The utility of urine for improved cervical cancer prevention

Enhancing cervical cancer screening by improving attendance and self-sampling

VACCINES

Cervical cancer accelerated elimination policies

Single dose HPV vaccination: updates across research domains

Impact of interventions in the post-HPV vaccination world

Long-term follow-up and impact studies for HPV vaccines

Expanding HPV vaccine implementation

From gender-neutral vaccination to universal vaccination against HPV: a change of paradigm in public health

TESTING

HPV-test validation

Global HPV laboratory network

Next generation analysis and bioinformatics

Validation of HPV tests for less established indications

MANAGEMENT

HPV and reproductive health

Recurrence of HSIL after treatment

Colposcopy: discussion on challenging cases

HPV in older women: epidemiology, screening and management

Targeted therapies of HPV related cancers

Point of care testing for cervical screening and management

METHYLATION

Clinical indications for DNA methylation analysis for cervical cancer prevention

EPIDEMIOLOGY

Structural and social factors that impact HPV driven cancers

Evolving patterns in HPV-driven cancers

LOW- AND MIDDLE-INCOME COUNTRIES

Real-world experience of the implementation of a screen-triage-treat strategy in LMICs

Cervical cancer in sub-Saharan Africa

SPECIAL POPULATIONS

HPV driven cancer in immunosuppressed populations

Cervical cancer control in underserved populations

ADVOCACY

Public advocacy and awareness campaigns to address barriers in HPV-associated cancer prevention

FRONTIER

Global evidence on HPV involvement in human malignancies at specified non-genital sites

CARCINOGENESIS

Update on anogenital carcinogenesis
